3 Renewable énergies generate electricity:  
- Biomass Energy as corn  
- Solar energy thanks to the solar panels  
- Wind energy thanks to the windmills

Are they the great solution for reducing Co2?

**Buying Foods By Osama**

The reduce for plastic use more carton packaging and product bag.

Laïchouche Bouzidi Un an

**Recycling socks**

For making dolls ( activities' ideas for childhood path)

Laïchouche Bouzidi Un an

**Sea pollution**

Protecting the seagrass helps a lot to reduce the Co2

**Smart transportation**

Smart transportation

Example

Paris Launched the Smart Mobility with "Electric, Green and smart transportation".

Laïchouche Bouzidi Un an

**A Good behaviour by bying local and seasonal food products:**

Buy local, natural and non-gmo fruits and vegetables, without packaging and especially seasonal and in bulk ( vrac) for legumes.

Don't forget to use product bags , paper bags or tote bags ( very fashion in Paris).

Laïchouche Bouzidi Un an

**Walking more!**

- Good for health and good for environment  
- Use less transportation for reducing Co2 emissions!!! 🍃

Laïchouche Bouzidi Un an

**AT Home By Yousouf**

Recycling Use the colours bins for each element and respect the environment.

Turn off the light when you leave!!

Laïchouche Bouzidi Un an

**Step by step**

Finally, we are aware that behavior does not change spontaneously. We will have an ecological habit step by step , and by starting from now on.

Laïchouche Bouzidi Un an

**POSITIVE ENERGY**

Be positive  
Being positive means thinking positive, acting positive and also speaking positive

WITHOUT using any negative words.

THE POSITIVE ATTITUDE ATTRACT THE POSITIVE ENERGY
