TURKEY

SOLUTIONS TO REDUCE POLLUTED AIR

MAIN PROBLEMS THAT CAUSE POLLUTION

- Industries [the main source of air pollution]
- Transport
- Agriculture [24% of all greenhouse gases]
- Waste
- Households [85% of households have access to cleaner energy sources]

SOLUTIONS FOR THESE PROBLEMS

SOLUTIONS TO REDUCE POLLUTED AIR

- Replace the car with public transport or other more sustainable means
- Reduce plastic consumption
- Bet on the 3 R's rule: recycle, reuse and reduce.
- Keep an eye on the products you consume and opt for those whose impact on the environment is minimal.
- Opt for energy efficiency and minimize energy consumption.
