

Air Pollution

What are the consequences for our health

Health effects of pollution

Air pollution

Headache
Fatigue

Water pollution

- Bacteria
- Parasites
- Chemicals

Soil contamination

Nerve damage
Lead

Particulate matter
Ozone

CO

Respiratory illness

Cardio-vascular illness

SO₂
NO_x

Gastroenteritis

Volatile organic compounds

Cancer risk

Pesticides

Nausea

Skin irritation

Here are the consequences of pollution on the human body

common consequences due to pollution

lead to the development of chronic obstructive pulmonary disease, asthma, lower respiratory infections, and in some cases lung cancer.

How to avoid these diseases ?

To avoid diseases caused by pollution we try to develop electric cars, build solar panels and avoid using fuel and coal factory.
