WHAT CAN WE DO TO SAVE OUR PANET?

WE NEED TO CHANGE THE
WAY WE LIVE AND MAKE SURE
THAT WE ALL HELP
INDIVIDUALLY TO REDUCE
POLLUTION.

Teacher: Corrada Gallo
Giulia Moschetti
Gaia Alaimo
Ludovica Scieri

THREE SIMPLE THINGS WE CAN DO TO SAVE OUR PLANET:

REDUCE: LOWERING THE AMOUNT OF
WASTE PRODUCED

RECYCLE: USING MATERIALS TO MAKE
NEW PRODUCTS

REUSE: USING MATERIALS REPEATEDLY

A misty forest landscape with tall, thin trees and a hillside covered in ferns. The text is overlaid on the image.

**LET'S SEE SOME
SOLUTIONS TO THE
PROBLEM**

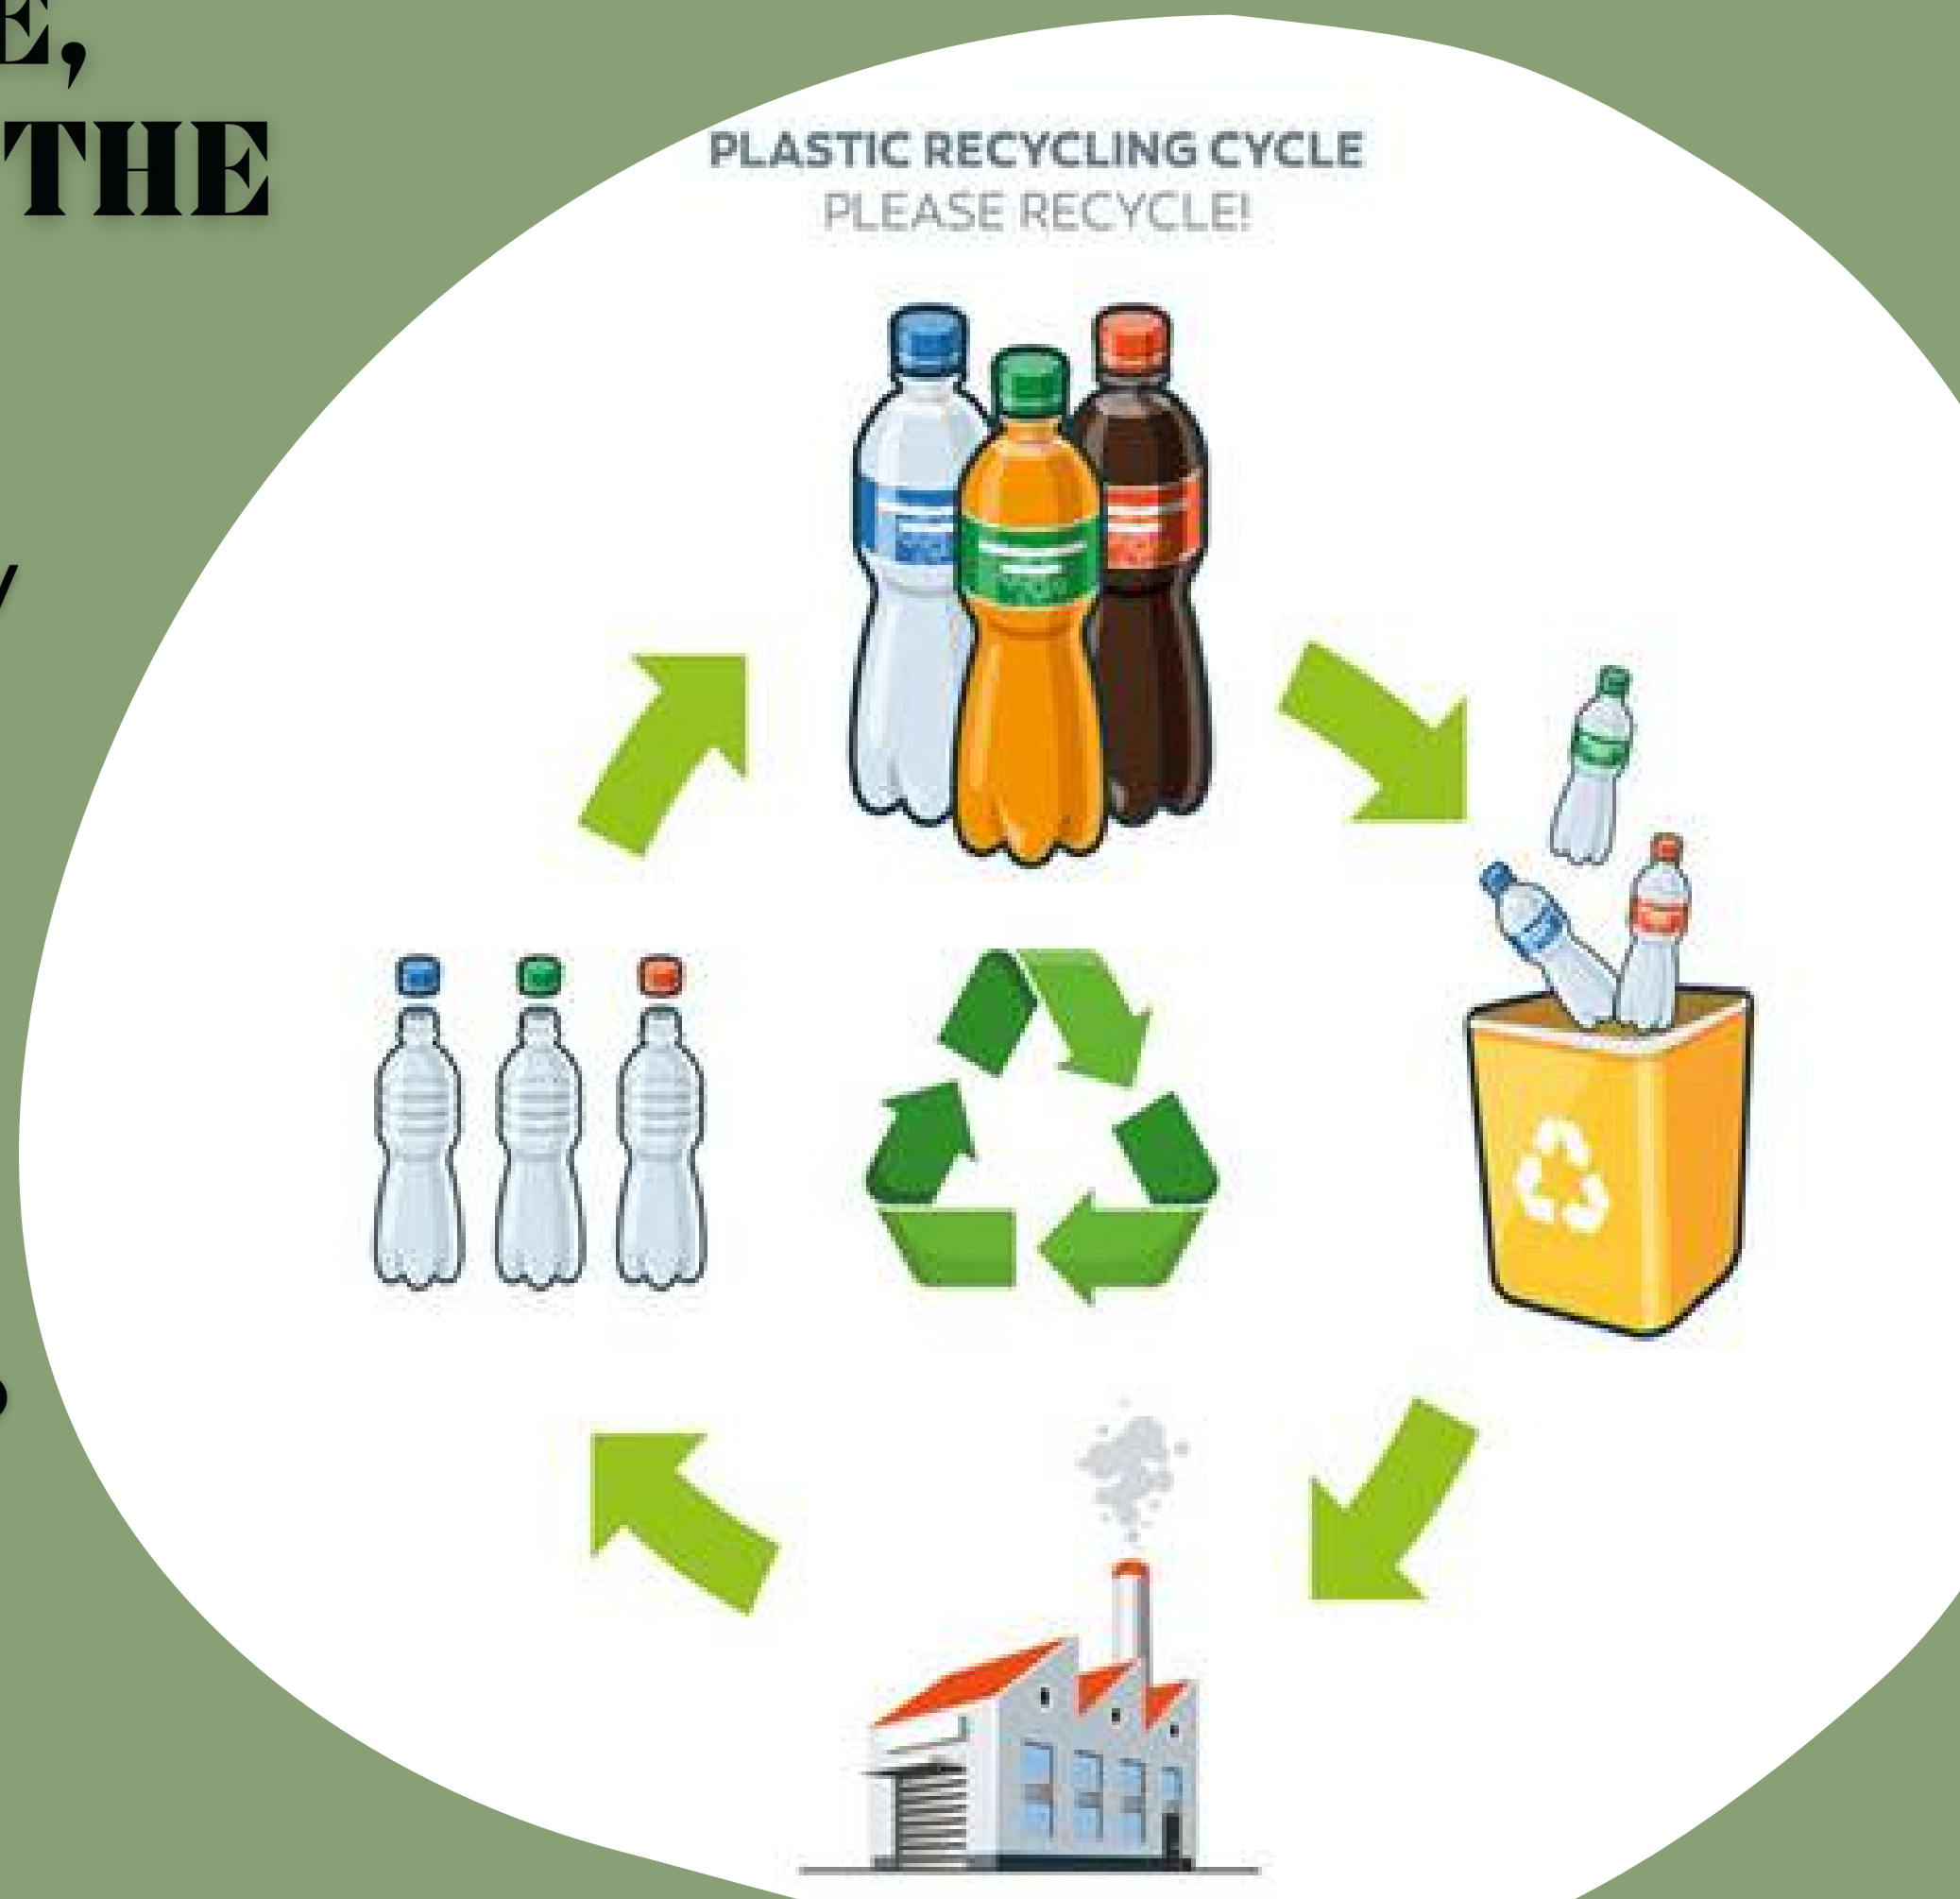

(maybe you are already watching some of them!)

IF YOU RECYCLE MORE, YOU'LL GIVE A SMILE TO THE EARTH!

RECYCLING CAN ENSURE GREATER SUSTAINABILITY OF THE PRODUCTION/USE CYCLE OF MATERIALS, REDUCE THE CONSUMPTION OF RAW MATERIALS, ENERGY USE AND RELATED GREENHOUSE GAS EMISSIONS. RECYCLABLE MATERIALS INCLUDE ALL WASTE THAT CAN BE REUSED TO PRODUCE NEW OBJECTS EQUAL TO WASTE OR USED TO PRODUCE NEW MATERIALS.

The materials we can recycle are for example: wood, paper and cardboard, glass and plastic!

IF WE CONSUME LESS WATER AND LESS ENERGY WE'LL HELP THE PLANET

IT TAKES A LOT OF ENERGY TO CLEAN OUR WATER. SO UNLESS WE SAVE IT, WE'LL CREATE MORE CARBON. OF COURSE, IF WE AREN'T AWARE OF OUR CARBON FOOTPRINT AND THE DAMAGE WE ARE DOING, WE WON'T BE ABLE TO START REDUCING IT.

When we have a shower, we use between ten and twenty litres of water. So keep your shower short! And if we don't turn on the tap when we brush our teeth, we save four liters of water every time!

PACKAGING

You can influence shops and manufacturers by what you buy. Complaints to manufacturers in the 1980's made by manufacturers produce aerosols without CFC gases. So whenever possible, try to choose eco-products which don't damage the environment. Avoid overpackaged goods, too. They cost more and create a lot of waste. Fast food is particularly wasteful-by purchasing food and drinks in styrofoam containers you are contributing to pollution.

Friday for future

DESPITE THE MEASURES AGAINST POLLUTION, THE SITUATION IS ALWAYS CRITICAL. FOR THIS REASON MANY HAVE BEEN THE PROTESTS AGAINST GLOBAL WARMING. BETWEEN THESE, THE MOST KNOWN IS THE FRIDAYS FOR FUTURE, A MOVEMENT IN WHICH MAINLY YOUNG PEOPLE JOIN IN. IN FACT FRIDAY FOR FUTURE IS A MOVEMENT STARTED IN 2018, BY GRETA THUNBERG AN ONLY 15 YEARS OLD TEENAGER. NOWAYS THIS FACT IS VERY IMPORTANT BECAUSE IT MAKES US UNDERSTAND HOW TEENAGERS CAN MAKE THE DIFFERENCE!

-GRETA THUNBERG

WE DECORATED FRUIT BASKETS MADE FROM WOOD WITH NEWSPAPERS TO MAKE A BOOKSHELF FOR OUR CLASSROOM

By covering the toilet paper rolls with newspaper, and gluing them on a polystyrene base, we have created a pen holder.

The dress was made with netting used by florists to decorated the bunch of flowers,old ribbons,plastic glasses and bottle caps to make the flowers.
